

Cupping

60-minute session \$115

90-minute session \$140

An ancient therapy technique

Cupping therapy is an ancient method in which a therapist attaches special cups to the patient with the use of suction. The suction created by the cup encourages blood flow.

This practice is used to help with pain, inflammation, relaxation, and general well-being.

Massage Services *Call or ask in office for available appointment times*

Deep Tissue

30 min - \$65 45 min - \$85
60 min - \$100 90 min - \$125

Designed to relieve tension in the deep muscle and connective tissue or fascia. Deep tissue massage helps with chronic muscular pain and injury rehabilitation. It also helps to reduce inflammation related pain caused by arthritis and tendonitis.

Sports Massage

30 min - \$65 45 min - \$85
60 min - \$100 90 min - \$125

Typically used before, during, and after athletic events. Sports massage prepares for peak performance, reduces fatigue, relieves swelling, reduces muscle tension, promotes flexibility, and helps prevent injury.

Pre-natal

45 min - \$85

A wonderful way to reduce stress and alleviate the natural discomforts that can accompany pregnancy. Pre-natal massage uses soft supportive bolsters in a side lying position to offer comfort.

Swedish

30 min - \$60 45 min - \$80
60 min - \$95 90 min - \$120

Intended to promote relaxation and stimulate circulation. Swedish massage incorporates long gliding strokes of light to medium pressure used to manipulate the soft tissues of the body. Benefits include dissolution of scar tissue, increasing flexibility, and easing tension.

Reflexology

30 min - \$60 45 min - \$80

An acupuncture type technique performed on the hands and feet. Reflexology is used to relieve tension, improve circulation, and help promote natural function of the body. Each zone of the body has a corresponding reflex point. Stimulating that point causes stimulation of the energy in the related organ.
